Letter from the Community Services Director

PARKS MAKE LIFE BETTER in Huntington Beach!

How do Parks and Recreation programs make life better in Huntington Beach? There are diverse benefits that can be accrued from participating in the programs offered in the SANDS Community Services Guide! The programs and facilities provided and maintained by the City of Huntington Beach make life better now and in the future by providing access to the serenity and inspiration of nature; outdoor space to play and exercise; facilities for self-directed and organized recreation for residents of all ages; positive alternatives for youth ranging from sport to art, which help lower crime and mischief; and a variety of activities that facilitate social connections, human development, the arts and lifelong learning. To learn more about ways in which PARKS MAKE LIFE BETTER, watch our "YouTube" video at <http://youtu.be/Nt7unBP3Bos>.

Paul Emery

Deputy City Manager/Interim Community Services Director
